

BREAST CANCER AWARENESS YEAR

Cromwell Emergency Vehicles Inc, the authorized Osage Ambulance dealer for New York, Vermont and Connecticut, has decided that Breast Cancer Awareness should be a year round concern, not just during the month of October.

President, Barry Michael Bashkoff, announced that for all customers that purchase a new ambulance from Cromwell Emergency Vehicles, and wish to add "pink" breast cancer awareness ribbons to their new vehicles, Cromwell would absorb the cost of the graphics production, no matter what size or how many the customers requests.

Secondly, Barry continued, "for every ambulance purchased, a \$250.00 cash contribution will be made to the American Cancer Society in the ambulance squads name and CEV."
