

Prolong the life of your On Spot chains

We **STORE** your take off chains and fly wheel for you.

Call us at **1-800-522-0246** for all your on site service needs.

Take **ON** - Take **OFF** service

Spring (April-May) Service — Chains OFF

- ++ Before removal of chain wheels, check bearings on chain wheels and arm bearings.
- ++ At minimum, remove chain wheels to prolong life of arm bearings.
- ++ Chain units may be removed, if desired (leaving mounting bracket in place with plugged air lines).
- ++ Disconnect dashboard switch and remove fuse.
- ++ Mark RHS and LHS chain wheels and chain units with vehicle unit number.
- ++ Check chain wheels, arm bearing and angle joints for wear to ensure system is ready for next season.

Fall (Sept-Oct) Service — Chains ON

- ++ Replacing chain wheels before winter months w/ bearing check and ready for service check.
- ++ Recheck torque on mounting brackets and chain wheels.
- ++ Check arm bearings for play and ensure proper angles of chain wheels.
- ++ Re-connect dashboard switch and replace fuse.
- ++ Engage system and check for air leaks.
- ++ Check chain wheel pressure against tire.
- ++ Grease the arm bearing.
- ++ Test system for proper alignment of chain wheels
